

Platinum COMMUNICATION SOLUTION

Mobile Overview

Platinum COMMUNICATION SOLUTIONS' Mobile App

Not only can employees make and receive calls placed to their corporate phone number via their mobile device, they can leverage important communication features, such as: *Platinum COMMUNICATION SOLUTIONS* Mobile enables you to utilize a virtually unlimited combination of IP desk phones, softphone clients (for computers and smartphones), and seamlessly integrate their call flow with their wireless technologies.

The Mobile Workforce is Growing:

In fact, industry specialists predict that the U.S. mobile worker population will increase from 96.2 million in 2015 to 105.4 million in 2020. Maintain your competitive edge by adopting the latest technology for your business and consider the following reasons why utilizing a mobile app is a no-brainer.

Protect Your Business:

Calls are directed right to an employee's smartphone without revealing any of their personal information. This helps ensure that business calls continue to be routed to your company versus an individual that may end up leaving to work for someone else (i.e. the dreaded competitor!). *Platinum COMMUNICATION SOLUTIONS* Mobile also makes it easier and more flexible for "bring your own device" (BYOD) work environments.

Never Miss an Important Business Call:

Clients and work associates can easily reach busy employees anytime through one business number that will automatically ring their mobile app. Eliminating the necessity to track down employees on multiple numbers, *Platinum COMMUNICATION SOLUTIONS* Mobile improves and streamlines communications, and seamlessly connects a distributed and fast-moving workforce. Gain the latest communication tools for y

our staff to never miss a business opportunity.

Stay Ahead of the Competition:

Platinum COMMUNICATION SOLUTIONS Mobile supports the virtual business office, enabling employees to connect seamlessly anywhere they need to conduct business
